

## THE WOW FACTOR

“WOW” is not a destination, but we always make sure our clients get there!

### SKY'S THE LIMIT IN LONDON

#### OUR CLIENT:

A well-renowned software company looking for a unique way to reward its top employees after a very successful product launch.

#### OUR WOW MOMENT:

What better way is there to enjoy scintillating views of London's skyline than in your own private Capsule?

A Capsule is the ultimate way to welcome this group and provide a magnificent 360 view of London and a sunset they will never forget. But just one wouldn't do, so we reserved all 32 capsules for a private affair. Of course, we could not forget to include a private butler, champagne, and a decadent assortment of canapes and caviar.

### CRUISING THE AMALFI COAST

#### OUR CLIENT:

A leader in the food industry wanting to take a select group of VP's from around the world on a decadent adventure for their next sales meeting.

#### OUR WOW MOMENT:

During our 8-day privately chartered luxury cruise, the group discovered Portofino in style.

As each couple stepped onto the pier in this quaint town, they were presented with their very own vintage Alfa Romeo sports car, complete with a personalized rally packet which included a map, Italian music, and instructions. The last stop on this road rally adventure was a private outdoor wine tasting and tour, followed by an exquisite 6-course lunch in the middle of one of the areas finest boutique vineyards.

### VIVA LA FRANCE

#### OUR CLIENT:

An affluent Board of Directors for a distinguished university were searching for an unforgettable experience to commemorate their 20th anniversary.

#### OUR WOW MOMENT:

We delivered a custom, 6-night travel program to Paris, France.

Upon arrival into this majestic city, the group was welcomed with champagne cocktails, then whisked away on a vintage bus for a private guided tour of the city. We saved the best for last by reserving the entire Alain Ducasse's 58 Tour Eiffel Restaurant for their evening gala. Who doesn't like surprises? They loved a surprise trip up the lighted Eiffel Tower and private tour to see why they call this remarkable place the city of lights.
